The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over St-Germain in view of Shoemaker and Rugger. St-Germain shows the claimed assembly having the claimed standoff bracket at 5-9, 11, a standoff leg at 10 and dowel at 23, the claimed difference being the attachment strap and retainer body. Shoemaker shows an attachment strap 34 with an eyelet 22, a retainer body 20 with slotted walls 78, and a wedge 22. Rugger shows an attachment strap made from a flexible material. It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide St-Germain with an attachment strap and body, as taught by Shoemaker, and for the strap to be made of a flexible material, as taught by Rugger, to enable a flexible attachment member that is capable of being used with his standoff bracket and being capable of attaching to a wall. To slope the surface of the slots to correspond to the slope of the wedge, would have been an obvious engineering expediency depending on the degree of wedging desired with respect to the depth of insertion of the wedge.

Applicant's arguments filed 12/14/07 have been fully considered but they are not persuasive. Applicant argues that to use a flexible strap with the standoff bracket of St. Germain would be inoperative, the examiner disagrees, the flexible strap is capable of being attached to the dowel of St. Germain and further be capable of being passed through a wall. With respect to claim 18, note the body of the rejection above.

Claims 1-6,8-12 and 19-21 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 12/14/07.

Applicant's election with traverse of Group II in the reply filed on 12/14/07 is acknowledged. The traversal is on the ground(s) that only the underlined verbiage is different and asserted that the examiner stated that the addition of new claim 21 allow for the new restriction. This is not found persuasive because the reason for the new restriction had nothing to do with new claim 21, but the currently amended independent claim 16, in the first restriction requirement applicant added a new claim 20 whereby a combination - subcombination (as recited in independent claim 13) restriction requirement would not be proper, But

due to the new subcombination, as set forth in the (currently amended) independent claim 16, such is a proper restriction.

The requirement is still deemed proper and is therefore made FINAL.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
